HAVE FAITH. END HUNGER.

### Especially for Children

#### Make Hunger History (for grades 4 – 6)

Activities to teach children about hunger—and its solutions. Through games, exercises, prayer, stories, and letter writing, students get a hands-on look at the realities of hunger and how God would like us to respond. Activities engage a variety of learning styles. Free download at [www.bread.org/hungerhistory4-6](http://www.bread.org/hungerhistory4-6)

#### Helping Hungry People

This curriculum takes elementary-age students on “trips” to a local soup kitchen, Haiti, Zambia, and India to learn about people living in poverty. They will engage in a variety of ways to help people who are hungry, through prayer, providing food for a food pantry, collecting money to give to an organization fighting poverty, and writing letters to their members of Congress. #### Rebalancing Act: Updating U.S. Food and Farm Policies

Bread for the World Institute’s 2012 Hunger Report calls for bolder thinking about how U.S. food and farm policies can meet the challenges of the 21st century. The report features a Christian study guide with six small-group sessions; each includes a biblical reflection, questions, a summary of key themes, activities, and an invitation to pray and act. Visit [www.bread.org/hungerreport](http://www.bread.org/hungerreport) to download the report or [www.bread.org/store](http://www.bread.org/store) to purchase a hard copy for \$20.

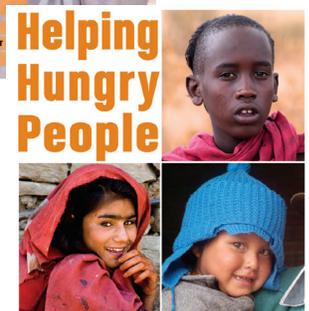

#### Bread for the World’s 2012 Offering of Letters Kit

Bread for the World’s 2012 Offering of Letters will urge Congress to create a circle of protection around vital programs for hungry and poor people in the United States and abroad. Within this campaign are four mini-campaigns that will address specific legislative topics before Congress: domestic nutrition assistance, poverty-focused foreign assistance, tax credits for low-income families, and international food aid. Visit [www.bread.org/OL](http://www.bread.org/OL) to learn more or [www.bread.org/store](http://www.bread.org/store) to purchase a kit for \$10.
